The information on this site is intended to facilitate the ongoing database and serials cancellation project by providing timely and up to date versions of all pertinent documents, including the FAQ, instructions and timeline. These documents will be revised as needed and in response to questions, concerns and financial developments within the campus community. We are currently collaborating with the University of Oregon Libraries to prioritize our collection review decisions to mitigate the impact of the budget reductions on both campuses. If you have any questions or comments, please feel free to contact Laurel Kristick, Head of Collection Development, or your subject librarian for further information.

Database & Journal Title Lists:

Subject Librarians worked with faculty to identify titles for cancellation. Please contact your subject librarian for further information. The titles on the final cancellation list may change due to changes in the university's budget situation and to our collaboration with the University of Oregon Libraries.
